

# Total and Additional Users of Modern Contraception, 2012-2019

In November 2019, FP2020 released "Women at the Center: 2018-2019" (<http://progress.familyplanning2020.org/>), its latest progress report from which this graphic is adapted. As its graphic below shows, coverage of modern contraception in the 69 low income countries that partner with FP2020 in tracking progress has increased since 2012, but not at the pace needed to meet the FP2020 goal. The group has also launched a post-2020 vision, and AVAC looks forward to working together towards an integration agenda.
