

# The Race for a Coronavirus Vaccine

*Will compressed and overlapping steps get a vaccine faster?*

Meeting the ambitious timelines for a COVID-19 vaccine will require an unprecedented multi-faceted, coordinated global response with governments, industry, academic researchers, delivery partners, donors and civil society. This graphic represents the key pillars of this landscape — with those organizations mentioned by name representing just a small fraction of the growing number of contributors in the global response to the COVID-19 pandemic.
